

Gibraltar - The Rock

Barbary Apes – *Macaca sylvanus*

This is one of the places on the Rock you can find the barbary apes.

They are nice and entertaining to watch, especially the young.

If you are not careful they also get into your car when the window or door is open. They hop on the cars from one side of the street and hop off again to the other side.

They are not supposed to be fed as they are wild animals although many people do to get photographs.

Gibraltar - The Rock

General View of the Eastern Side

Eastern Area viewed from the Rock.

First beach here is Catalan Bay, then water catchments, the last turning is before Dudley Ward Tunnel area - which is shown later - if you look closely you can see the pier at the end.
