INTRODUCTION

This book is not based on a single point. It contains many techniques introduced by world famous scientists, authors and billionaires in attracting money.

In normal situation a single book covers one particular technique or advice in a particular subject. Albeit this book goes beyond that parameter in bringing very latest and modern practical methods that could be used to attract money in one's life.

Hope many or at least one of those techniques must work for you to be financially comfortable.

In my studies, certain techniques matched certain people. I never wanted to elaborate single technique in making this book boring to the reader. I therefore got straight in to the point.

I have studied and utilized those techniques for more than 8 years before writing this book.

In modern world people seem to be struggling in their financial prisons not knowing what to do to make more money. I therefore believe that this book would be a big relief to my readers.

I must say that all the practical techniques in this book have been tested,

They all based on psychology and subconscious mind.

WHAT QUALIFICATION YOU NEED TO BE RICH?

Before getting in to the point we need to address some important facts about making money.

Nowadays many people tend to believe that education is a must to be successful in their life. In this case, I must remind you that people in ancient times never went universities. But there were wealthy people .On the other hand those great scientists who changed this world had never been to a school sometimes.

And we sometimes believe hard work is the key to be rich. But you may know that there are many people who make millions without dropping any sweat in all countries.

So what qualification you need?

Nothing!

Can you believe?

Your attitude towards money makes you wealthy or poor.

All you need is to know one thing “your subconscious mind” the source.

The idea about wealth in your subconscious mind will lead you towards or backward.

SO in our journey of searching money goes deep into your mind.

The financial position you have today is a reflection of your subconscious mind. When you were a kid you gathered information through your five senses and stored them in your deep mind. You were told about what money was by your elders and your environment so that you decided them to be true, but actually not true.

You were told to struggle to make money. Now the first step to our long journey begins to remove blockages in your subconscious mind to make easy money.
